

Notice to Classes 10&12

Dear Parents/Students

15th of October 2020 is the last day for the uploading of LOC registration to CBSE for the Board Exam of 2021-22. There are some students who haven't come to the school to check the LOC and sign it. This has delayed the office work. We have sent a number of messages through SMS and have tried calling the students but couldn't get in touch with students because the number provided by the students to the school has no incoming call facility. The deadline for checking LOC in the school office is 9th October. If LOC is not checked and signed by the 9th October then such student's names will be removed from the LOC and they won't be able to write the board exam in 2021-2022.

Dear Students/Parents

On the 5th October 2020 we have started the consultation for the students of classes IX-XII. Since the school is not giving the transportation facilities and hostel facilities to the students it will be very difficult for many of you to attend the class. As per the instructions from the government we will be having online classes along with the consultation. So you can attend the classes sitting in the safety of your homes until the pandemic situation comes to an end.
